**Cracking The Code...True story.**

**The next evolution in marketing...**

## **How I 3X my client's online business in 8 months during a global pandemic.**

**With some important takeaways I learned along the way...**

A lightbulb idea came to me during a phone call with a client who owns a music store ,a drum shop to be exact that I run a website and Facebook page for. It was March, 20th 2020 and I had called to see if there was anything he needed to post regarding the NY State Retail Lockdown Mandate.

He asked; “Johnny I am dead in the water here ,whatcha got for me?” Then out of thin air it came to me. I said, “why don’t we do a Facebook live sales event?” His response was “wait, a what? How? Can we do that? The ah-ha moment had happened! A new service for my digital agency, an incredibly happy client who is making money even with his doors closed and a new revenue stream for me... Yep, things are good. 😊 Whoa, I am jumping ahead of myself here! Let me backup a little.

This would come to be known as “The Rainmaker Model” A 3 part formula that can be explained on the back of a cocktail napkin. No need for a landing page, or multi-step funnel builder, or automated marketing bots. Simply an elegant solution for creating sales quickly...

Even as the words spilled out of my mouth “why don’t we do a Facebook live sales event?” I thought “How the hell can I do this?” Followed immediately by “Yes, that’s how I can do this!” Everything fell into place within 15 minutes and 24 hours later we were live, selling on Facebook...In less than 20 minutes he made \$600 with his doors closed by state mandate. Since then we’ve increased his Shopify store earnings by 255%
